Seventy-seven students on twenty-nine teams representing four colleges and universities and a secondary school group competed in the Seventeenth Annual NMU Invitational Programming Contest on Saturday 9 April 2016: For each problem, the first number indicates the minutes it took that team to solve the problem; the second number indicates the number of failed attempts by that team on that problem prior to solving it. The minutes are added together and a 20-minute penalty is added for each failed attempt of a problem that was eventually solved. No penalty is added for any problem that was never solved. The teams are ranked by the number of problems that they complete. Ties are broken in favor of the team with the smallest number of minutes.

Totals on each problem

Problem 1: 3 teams
Problem 2: 2 teams
Problem 3: 7 teams
Problem 4: 8 teams
Problem 5: 2 teams
Problem 6: 1 team

The three highest-ranking teams from each school had their program counts and
completion times summed. The schools were ranked with regard to the highest program
count, with ties broken in favor of smaller completion times.
