

Quiz 5

Time: 10 minutes

1. I have a PDF file called “classiccomix.pdf” in a folder called “comics”. Write the HTML code to EMBED that PDF file in my web page. Remember to make the PDF large enough so that it can be read on a standard browser.
2. I have two MP3's of the same song. One is compressed more than the other is. Give reasons why I should choose to embed the more compressed song on my webpage and reasons why I should choose to embed the less compressed song.

Quiz 5

Time: 10 minutes

1. `<EMBED SRC="comics/classiccomix.pdf"
HEIGHT=50% WIDTH=50%></EMBED>`

2. The more compressed song will load faster and take up less space; however, the more you compress a song, the worse it sounds. A less compressed song may sound better, and if the distinction is noticeable, you may wish to go with that.
