CS201-01-22F: Programming In C++ (Andrew A. Poe)

Practice Quiz 5

Wednesday 5 October 2022 11:00 A.M. EDT

Time: 15 minutes.

Write the following method (not a whole program):

```
void MoveSmallestToFront(int *A, int  
Alen) ;
```

This method finds the smallest integer in the array and makes it the first element of the array, moving the intervening elements down. For example, if the array were {4,8,1,0,4}, the array would become {0,4,8,1,4}.

Practice Quiz 5

Wednesday 5 October 2022 11:00 A.M. EDT

```
void MoveSmallestToFront (int *A, int  
Alen) {
```

```
    int sp=0;  
    for (int i=1; i < Alen; i++)  
        if (A[i] < A[sp]) sp = i;  
    int t = A[sp];  
    for (int i=sp; i >= 1; i--)  
        A[i] = A[i-1];  
    A[0] = t;  
}
```
