

# Northern Michigan University (Marquette Co, MI)

## CS 344-01-25F: iOS / iPhone Programming

### Program 2

Due: Friday 19 September 2025 3:00 P.M. EDT

### Simple App

Create a folder called “PG2” in the top level of your CS344-01-25F folder. Copy your XCode project file into this folder. Place a (possibly empty) file or folder called “DONE” into this folder when you are ready to have your programs graded.

Generate an app using only the storyboard without writing a single bit of manual code. This app should be about dinosaurs and you should have at least ten different views that you can move around between with buttons. Make it reasonably cool.
