Northern Michigan University (Marquette Co, MI)

Time: 15 minutes.

Your view contains a WKWebView . It is already there and connected to a variable wv through the storyboard. Write code to load up a map of Beijing, China. The coordinates for Beijing is 39º 55' N, 116º 24' E .

```
let url = URL ("https://www.google.com/maps/@39.91666666,116.4,15z")
let requestObj = URLRequest (url:url!)
wv!.load (requestObj)
```
