

Northern Michigan University (Marquette Co, MI)

CS 344-01-26F: iOS / iPhone Programming

Program 2

Due: Wednesday 16 September 2026 3:00 P.M. EDT

Simple App

Create a folder called “PG2” in the top level of your CS344-01-26F folder. Copy your XCode project file into this folder. Place a (possibly empty) file or folder called “DONE” into this folder when you are ready to have your programs graded.

Generate an app using only the storyboard without writing a single bit of manual code. This app should be about the 250th. anniversary of the United States (the semiquincentennial) and you should have at least ten different views that you can move around between with buttons. Make it reasonably cool.
