Practice Quiz 1: Thursday 3 September 2026 1:00 P.M. EDT
Time: 15 minutes

```
func PrintFollowedByEvens (_ A:[Int]) {...}
```

Prints all numbers in the array that are immediately FOLLOWED by an even number. In the array. For example, if the array were [4,9,8,5,5], only 9 would be printed since only 9 is followed by an even number (8) in the array.

For maximum points, loop over the elements of the array, not over the indices.
