Northern Michigan University (Marquette Co, MI)

CS344-01-26F: iOS / iPhone Programming (Andrew A. Poe) Name: _____
Quiz 8 Friday 6 November 2026 2:00 P.M. EST

Time: 15 minutes.

If you know the course ID, the section number, and the semester of any class I teach, you can reach all quizzes and tests for that class by visiting the appropriate site. For example with course ID CS344, section number 01 and semester 26F, just visit http://philos.nmu.edu/cs344-01-26f/QT/ .

In Swift, a view controller has three textfields, a button, and a WKWebView already attached. The button is already connected to a method “viewquizzes”. Write the code for the viewquizzes method that will load the quizzes and tests page corresponding to the course ID, section number, and semester in the textfields into the WKWebView.

```
    @IBAction func submit () {
        var ss = "http://philos.nmu.edu/"+String (tfID!.text)+"-
"+String(tfSec!.text)+"-"+String(tfSem!.text)+"/QT/"
        let url = URL(string:ss)
        let requestObj = URLRequest (url:url!)
        wv!.load (requestObj)
    }
```
