CS 345-01-25W: Android Programming

Program 4

Due: Wednesday 26 March 2025 4:00 P.M. EDT

Create a folder called “PG4” in the top level of your CS345-01-25W folder. Copy your Android project into this folder. Place a (possibly empty) file or folder called “DONE” into this folder when you are ready to have your programs graded.

Write the following program in XML and Kotlin for Android.

Similar to PG3, using fragments, you should now allow 25 comic books to be displayed on the screen in a scrollable menu. Click on an entry to see more information about the device and rate it from 1 to 10. The rating should also appear in the scrollable menu next to the device name.
