CS 345-01-26W: Android Programming

Program 4

Due: Friday 20 March 2026 1:00 P.M. EDT

Create a folder called “PG4” in the top level of your CS345-01-25W folder. Copy your Android project into this folder. Place a (possibly empty) file or folder called “DONE” into this folder when you are ready to have your programs graded.

Write the following program in XML and Kotlin for Android.

Similar to PG3, using fragments, you should now allow 25 sports teams to be displayed on the screen in a scrollable menu (Recycler View). Click on an entry to see more information about the team (in a Pager View) and rate it from 1 to 10. The rating should also appear next to the team name in the scrollable menu.
