This course is the capstone course for the Computer Science and related majors. The student will complete an independent project of their choosing.

Office Hours: My office hours will be electronic this semester because we are still in wacky COVIDy times. You'll receive the Office Hours Zoom information in every e-mail I send. I'll be online every weekday except Tuesdays from 8:00 A.M. to 6:00 P.M. unless I have a class or another meeting.

Electronic Contact: Feel free to contact me at any of the above addresses.

Statement on Plagiarism: Plagiarism is the submission of someone else's work as your own. It applies just as strongly when the work is to be written in a computer language as when it is written in a human language. All of the work you submit must be entirely your own. All of it. Your friends may not write code for you, nor may your classmates, nor tutors, nor professors. You may not use code found in books or online. All of your code must come from you. Period. Academic fraud is very serious and will be dealt with according to NMU policy. I reserve the right not to accept work that I do not believe comes from you, and I reserve the right to question you about your submitted work. If one student does the work assigned to another student, both students have committed academic fraud and will be dealt with as such.

Course Objectives: At the conclusion of the course, the student should be able to design and implement a sophisticated project in software, hardware, or theory and be able to describe and present it in written and oral fashion.

Disability: If you have a need for disability-related accommodations or services, please inform the Coordinator of Disability Services in the Dean of Students Office at 2001 C. B. Hedgcock Building (227-1737 or disserv@nmu.edu). Reasonable and effective accommodations and

services will be provided to students if requests are made in a timely manner, with appropriate documentation, in accordance with federal, state, and University guidelines.

Right of Alteration: I have no idea what this semester will bring in terms of the pandemic. I reserve the right to make changes to the syllabus at any time including major changes involving course content, delivery, and grading rubrics.
