Quiz 1

Friday 27 January 2023 1:00 P.M. EST

Write Kotlin method named Compress. Compress should ask the user to enter a string. The string should then be printed with spaces removed.

For example, if the user entered “Pineapple on pizza!!?” the method should print “Pineappleonpizza!!?”

```
fun Compress () {  
  
    print ("Enter a string: ")  
    val s = readLine ()!!  
    for (ch in s)  
        if (ch != ' ') print (ch)  
    println ()  
}
```
